

Objective

The goal is to match two cards that connect in meaning and explain how they are related.

Setup

Shuffle all the cards and place them face down on the table in neat rows. Make sure the cards are mixed well so matching pairs are not next to each other

How to Play

1. First, separate the cards into two colours. Place all the pink cards face down on one side and all the blue cards face down on the other side.
2. Players take turns. On your turn, flip over two cards and look at the images carefully.
3. If the two cards connect in meaning, you keep the pair. You must briefly explain how the images are related, then you take another turn.
