

How to Play

- Decide who will go first.
- The first player draws a card and reads the question aloud to their partner.
- The partner answers the question without interruption. The person who asked the question must listen attentively.
- Once the partner has fully answered, the questioner then answers the same question for themselves.
- Only one question is discussed at a time. Focus fully on that question before moving on.
- Take turns drawing cards and repeating the process.

Important Rules

- No Interruptions: Allow your partner to fully express their thoughts before responding.
- Full Attention: Phones, devices, or any other distractions are strictly off limits.
- Respect & Openness: Answers should be honest and open, creating a safe space for meaningful conversation.
- One Question at a Time: Focus on one card before drawing the next to maintain depth and connection.

End of Game

- 
- Play continues until you have gone through as many cards as you wish or feel you have reached meaningful closure for the session.
 - Reflect together on what you learned or discovered about each other.
